

Ambourne House Day Nursery

Parent Partnership

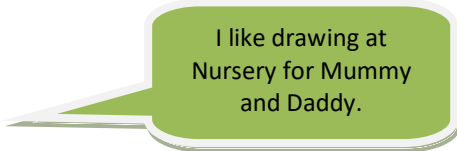

Policy Statement

At Ambourne House we strongly believe that a trusting and supportive partnership between parents and ourselves is crucial to a child's well being, development and progress. We feel that a two way flow of information, knowledge and expertise is of paramount importance when creating an atmosphere of mutual respect within which children can have security and confidence to flourish. We, therefore, place great emphasis on the continual development of staff/parent communication.

We believe that parents are a child's first educator. We therefore ensure that our relationships with families are honest, open and constructive and always work closely with parents in providing quality care and education.
